ŁUKASZ KONATOWSKI

Address: Gdynia, Poland
Phone: +48 786 237 411
E-mail: konatowskil@gmail.com
Links: LinkedIn | GitHub | Portfolio | Blog

Frontend developer with 4+ years of experience building applications with React and TypeScript.
Actively moving towards full-stack development and AI engineering, working with Next.js, Python and SQL.

WORK EXPERIENCE

Avenga Poland
June 2022 – February 2026

Frontend Developer

1. Advertising Campaign Management Platform
Stack: TypeScript, React, AntD, styled-components, Redux
Key contributions:

- Built responsive and reusable UI components
- Integrated REST API endpoints and coordinated API contract updates
- Created and maintained unit & integration tests (Vitest, RTL)
- Participated in code reviews and improved coding standards
- Collaborated with product owners and stakeholders on requirements
- Managed tasks and documentation in Jira + Confluence

2. Advertising Banners Management Platform
Stack: TypeScript, Vue 3, Nuxt 3, Vuetify, SASS
Key contributions:

- Implemented full-stack features in Nuxt 3 (frontend + server routes)
- Built reusable UI components and design-system-aligned layouts
- Integrated REST APIs for creatives management
- Worked with analytics and tag-management tools
- Onboarded new frontend developers
- Participated in code reviews and maintained documentation

3. User Consent Management Platform (Cookies)
Stack: TypeScript, React, Material UI, styled-components, React Query
Key contributions:

- Developed responsive UI components
- Integrated REST APIs for consent management
- Implemented state management with React Query
- Built unit & integration tests (Vitest, RTL)
- Worked closely with UX/UI designers to deliver pixel-perfect components

SIDE PROJECTS

Hunter vs Runner - 3D multiplayer

Stack: React | TypeScript | React Three Fiber | Web Sockets | Colyseus | NestJS + Supabase | Docker

Repo: https://github.com/konat1993/hunter-vs-runner-multiplayer

Blog: https://medium.com/@konatek1993/building-a-browser-3d-multiplayer-with-ai-agents-vibe-coding-a-hunter-vs-runner-57c1b532cdea

Website: https://hunter-vs-runner-multiplayer.vercel.app/

Animal Photos Telegram Bot

Stack: Python · FastAPI · OpenAI · Supabase · Next.js · Leaflet · Docker

Repo: https://github.com/konat1993/hunter-vs-runner-multiplayer

Blog: https://medium.com/@konatek1993/building-a-wildlife-sightings-ai-pipeline-from-a-telegram-photo-to-a-map-dashboard-53bd8eab06f0

COURSES

- **Front-end JS & React Course**

  Topics:

  HTML, CSS (RWD), JavaScript, Git, REST API, React + React ecosystem (React Router, React Hook Form, Redux, Material UI)

- **React Course**

  Core concepts of React, components architecture, working with REST APIs

- **Nextjs Course**

  Focused on understanding key concepts related to server-side and client-side interactions and integrating external databases using modern web technologies.

  Key areas covered:

  - **SSR / SSG / ISR workflows**
  - **Client–server communication patterns**
  - **Routing & data fetching**
  - **Server & client components**
  - **Database integrations (Prisma, external APIs)**
  - **Apollo GraphQL for data querying**
  - **Full-stack feature development**

EDUCATION

Gdansk University of Nanotechnology – Gdansk
2011 - 2015

Nanotechnology – Bachelor of Science

LANGUAGES

English: B2

Polish: Native
